RetroGUARD™

FILLING THE GAPS IN SAFETY

RetroGUARD™ safety panelling is retro fitted to your existing handrails. It adapts to all types of platforms, stairs and walkways.

RetroGUARD™ is safety engineered to:

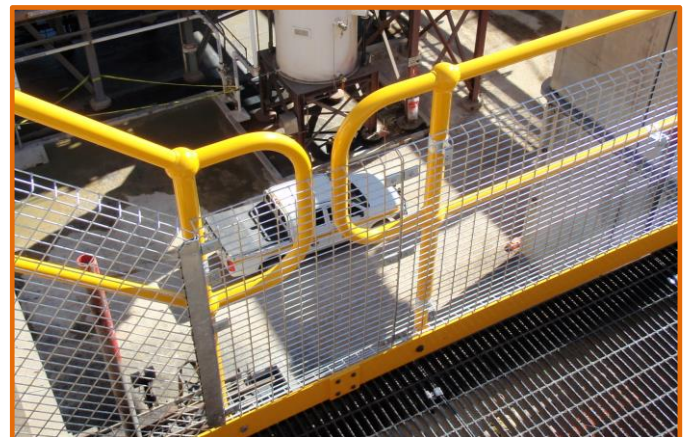

- Prevent injury from dropped objects.
- Prevent personnel leaning through, standing or stepping onto handrails.
- Maintain 3 points of contact during access and egress.
- Be fitted entirely from inside the safety barriers of your platform or stairs.

The key to RetroGUARD's™ fast and safe installation is our unique patented bracket design which accommodates various panels. Our brackets are engineered for maximum safety.

PRO3™ FLEXIBLE SOLUTIONS

- SAFER WORKING ENVIRONMENT
- FAST, SAFE & EASY TO INSTALL
- ECONOMICAL
- FLEXIBLE AND COMPREHENSIVE COVERAGE
- FLEXIBLE MESH PANEL DESIGN AND COLOURS
- RETRO FITTED TO EXISTING STANCHIONS
- NO DRAFTING REQUIRED
- NO SITE SURFACE PREPARATION
- NO SITE WELDING OR HOTWORKS

fast, flexible solutions for your safety needs

Our safety panel system maintains the existing handrail integrity and can be quickly and easily removed to provide vital access to areas for maintenance works.

RetroGUARD™ provides full coverage along the total length of your handrail system.

RetroSTEP™

AN EXTRA STEP TOWARDS A SAFER WORKPLACE

Fast, affordable and easy to install RetroSTEP™ plays an integral part, when combined with RetroGUARD™, in reducing dropped object risks from open stairs and walkways.

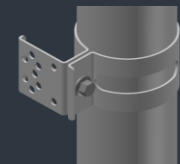

“Our unique safety risers will reduce the opening between your existing steps.”

WORK IN COMPLETE SAFETY

RetroGUARD™ has been specifically engineered to prevent dropped objects injuring workers below.

Our cutting edge designs mean no drafting or fabrication is required for any of our installations.

COVERAGE AND STRENGTH

RetroGUARD's™ flexible design gives complete coverage, even for those often missed internal and external corners.

Our simple clamp system and our custom profiled mesh panels are designed to deliver additional strength and safety.

3 GUARANTEE

Our Safety Solutions will make your work environment a safer work place.

RetroTREAD™

MINIMISE THE GAPS IN YOUR SAFETY PLATFORM

RetroTREAD is a unique clamping & floor covering system designed to clip to your existing grid mesh floor. It allows for the fast and safe installation of many safety floor solutions.

Barrier Mesh is quickly secured to the RetroTREAD™ clip, “Barricading areas above & below each platform level, preventing risk of injury from falling objects.”

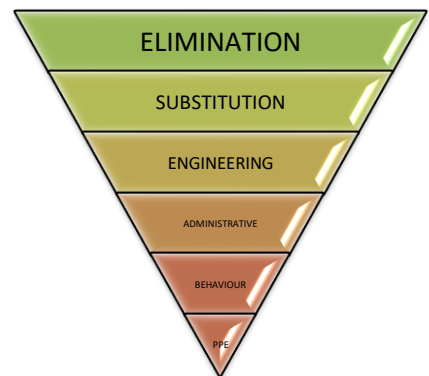

INSTALLATION SOLUTIONS

To ensure quality and safety Pro3™ “Dropped Object Prevention System” has the simplicity of a clip and clamp design to allow fast and correct installation in the most harsh and challenging environments.

Installation occurs with little or no interruption to your scheduled maintenance or production and within the safety of your existing handrails and platforms.

HIERACHY OF CONTROLS

RetroGUARD™, RetroSTEP™, RetroTREAD™ are substitution safety solutions and therefore are among the highest order of control practicable for existing plant. By preventing objects being dropped from within the handrails and through the flooring and stairs, there is less reliance on the lower order of controls.
